

The 401k peace of mind you need. The personal, one to one service you deserve.

Today's retirement planning demands more than a financial advisor. More than a CPA. Between the complex tax laws, the compliance regulation nightmares, the miles of legal red tape, and the endless hours of paperwork, you need a dedicated and proactive Third Party Administrator (TPA) you can trust.

You need Stones River Consulting.

At Stones River Consulting, our TPA services work in conjunction with your investment advisor and investment company to ensure a law-abiding and beneficial 401k environment. Our goal is to determine the absolute best and most secure plan for you, your business and your employees.

80% of Americans between the ages of 30 and 54 believe they will not have enough saved for retirement.

Saving you time, money and grey hairs.

Why open yourself up to fines, audits or lawsuits? Gain peace of mind by having a trustworthy, experienced and independent team looking after your retirement plans.

We proudly provide specialized 401k compliancy services that neither your financial advisor nor CPA can touch. Stones River Consulting:
