

# Stop living HALF a LIFE!

Discover how a proven  
**“Breakthrough Leverage Solution”**  
has helped more than 20,000 people beat their  
chronic back pain and discomfort for good!

Free of side effects and free of costly therapies,  
you can gently and easily  
**FREE YOURSELF of back pain in  
JUST 6 RELAXING MINUTES A DAY!**

*“I am ALIVE again.”*

- Ben Monro, former back pain sufferer

Dear Back Pain Sufferer,

It’s probably the first thought you have each morning and the last thought before closing your eyes each night:

**“If only I could be FREE from this pain!”**

Sure, the pain itself is difficult — and at times unbearable. Forcing you to your knees. Forcing you to tears. Forcing you to want to scream.

But the pain is not the worst part.

What’s worse is how your pain controls your life. Forcing you to the sidelines of life

while you watch your friends and family enjoying their lives to their fullest.

Because of your back pain... or because you are afraid you may re-aggravate your back, you must make tough decisions:

## **Either you SUFFER or you SACRIFICE**

Trying to trudge through a semi-normal life, you must suffer with back pain most every day.

Just getting out of bed in the morning. Making breakfast. Running errands. Lifting and playing with your children or grandchildren. Showering or bathing. And even sleeping.

Any movement, anywhere, and any time of day it can strike... then the pain takes over. Takes control of your life.

So to keep from suffering, at times you are **forced to live just half a life.**

You pass on the golf outing or shopping with your friends. You miss the kids' game because the bleachers would be unforgiving. You sacrifice your true joys in life... whether it's gardening, or sports, or cooking, or sex.

You suffer and sacrifice and suffer some more until you grow desperate enough to crave temporary relief.

## **And you start living for your next dose of pain meds**

Sure, the doctors and pharmacists label them as "medicine", but there's no sugarcoating what they really are... Drugs.

Of course they work. For a while. Until they start to wear off just 4 or 6 hours later when your back, body and mind begin to crave more.

But even prescribed drugs come with risks and dangers, such as

- The dangers of short-term side effects
- The risks of the effects on your long-term health
- The danger of an accidental overdose
- The risk of dependency

And of course, in the back of your mind, the risk that one day in the not-too-distant future, the drug you're prescribed will be plastered all over TV commercials where rich lawyers bring suit due to the mass injuries caused by your prescription.

And no matter how strong the prescription, over time the drugs lose their effect. And when your painkillers aren't working, your doctor's first response is to INCREASE your dosage – or add a second prescription!

It's a never-ending cycle that doesn't FIX your back problems. It simply MASKS the symptoms.

**This isn't living. There IS a better way.**

We've recognized this ongoing cycle for years. That's why we rolled up our sleeves and went to work to find a REAL solution. One that provides one of the safest, most convenient and most beneficial ways for you to reduce or even eliminate your back pain whenever and wherever you wish!

## **Introducing the Nubax® Trio... Your 6-minute solution to regaining your WHOLE LIFE back!**

Today the marketplace is littered with contraptions and devices and thing-a-ma-jigs, each with its own promises and staged testimonials.

Because people are so desperate to put an end to their pain, they'll try anything. So they buy these lame gizmos, use them a couple of times and then pitch them. Go to any garage sale, and you'll see the complete array of last year's failed products.

That's why we took a different approach.

**Rather than start with the product, we started with the science.**

We started by fully understanding peoples' unique pains. We started with the end goal in mind — pain-free living — and worked backwards to create the only solution that could achieve such an aggressive goal.

It wasn't easy.

But we didn't give up. It took nearly a decade of research and development. But in the end, after multiple international patents, that's precisely what we created:

**One of the safest, most relaxing and most beneficial solutions to reduce or even eliminate your back pain whenever you wish!**

It's called the **Nubax**<sup>®</sup> Trio. And its reputation as a proven fighter of back pain has caught fire.

**With all of its pain-eliminating, health-enhancing benefits... the Nubax<sup>®</sup> Trio simply gives people their lives back.**

As a back pain sufferer, you certainly want to find that genuine solution that alleviates or eliminates your back pain.

The inventors of **Nubax**<sup>®</sup> Trio aren't satisfied with that. They don't want to settle for simply fixing your back pain, which is why the **Nubax**<sup>®</sup> Trio is designed to:

- Help you maintain a healthy back for life
- Enable you to perform physically demanding activity
- Improve your mobility, no matter your age
- Prevent future injuries
- And even help you to relax

This drug-free solution to your back pain is designed to be used anytime and anywhere. Rather than making an appointment and waiting days or weeks when your pain is unbearable, the **Nubax**<sup>®</sup> Trio is portable and convenient. Because it's fully portable, you'll gain a credible alternative to intermittent (cyclical) traction for results at any time.

This is what Dr. Tim Ackland, PhD, Associate Professor in the Department of Human Movement at the University of Western Australia has to say about the **Nubax**<sup>®</sup> Trio:

*"The **Nubax**<sup>®</sup> Trio is a unique device which successfully combines patient comfort and ease of use to alleviate lower back pain through spinal traction."*

There's a reason the **Nubax**<sup>®</sup> Trio is the leading natural treatment for lower back pain with a near 100% success rate for more than 20,000 patients.

It simply works. It's listed on the Australian Register of Therapeutic Goods. And several of Australian sporting greats use it to eliminate back pain and stay in peak physical condition, including:

- AFL hero Jim Steins
- Olympic Gold Medalist in hockey Bevan George
- Olympic cyclist Tony Davis
- Football champion Matt Preddis
- And AFL West Coast Eagle Sam Buttler.

No matter if your back pain is constant or intermittent.

No matter if your pain is the result of an accident, a medical issue, or simply from a lifetime or working hard.

No matter if your pain is screaming severe or simply discomforting, the **Nubax**<sup>®</sup> Trio will help.

In fact, through clinical trials and many thousands of relieved people, the **Nubax**<sup>®</sup> Trio has proven to work wonders with the following conditions:

- Scoliosis
- Sciatica
- Degeneration of vertebra
- Rheumatoid arthritis
- Ruptured discs
- Prolapsed discs
- Bulging discs (herniated discs)
- Pinched nerves
- Back stiffness
- And any type of general lower back pain

And the second you break down the science, you realize that there's no way the **Nubax**<sup>®</sup> Trio can't work...

**Because it utilizes one of the universe's  
most powerful forces — LEVERAGE**

Through the power of leverage, a 110-pound girl can easily lift an object that is 10X her weight and size.

And through the power of leverage, the **Nubax**® Trio works in conjunction with your body as well as earth's natural gravity.

Here's how it works:

By simply suspending your body over a common pivot point, whilst being held symmetrically at either end of the back, a stretch is created as gravity gradually forces the waist and the shoulders apart.

Rather than hanging upside down in an unnatural and potentially dangerous inversion therapy contraption, the **Nubax**® Trio provides a patented lever action that stretches the lower and mid back to relieve discal pressure and promote self-healing.

Yes, inversion therapy can be beneficial to alleviate or reduce back pain. However, it's not without its risks... and costs... and inconveniences.

According to Wikipedia, "People who have heart disease, high blood pressure, eye diseases (such as glaucoma), or are pregnant are at higher risk for the dangers related to inversion therapy and should consult their doctors about it first." Wikipedia also states, "Combining an inversion table and acid reflux can be a painful, nauseating and potentially dangerous combination."

And of course, because many insurance companies do not support inversion therapies, you have to pay considerable money for the privilege of risking your health this way.

With the **Nubax**® Trio, people receive the pain relief they want but without the costs, physical awkwardness, and potential health risks associated with inversion therapy.

**With a complete money back guarantee  
and 5-year warranty,  
the only thing you have to lose is your back pain**

Think about your days now. Either the pain is always there, or it's always in the back of your mind. And you're thinking:

“When is it going to strike? Will I be able to get through the day? When will it ever end?”

You’ve done the therapy. You’ve tried the medications. And all you have to show for it are bills and regret. And yet you still have the pain.

Isn’t it time you tried something NEW? Something that doesn’t simply promise results, but backs it up with multiple international patents and testimonials from more than 20,000 satisfied users?

Clinical trials conducted by the University of Western Australia revealed that users of the **Nubax**<sup>®</sup> Trio consistently achieve better results than those people who rely solely on commonly prescribed forms of manipulation, massage and other exercises for their back pain.

Before inventing this modern back pain miracle, **Nubax**<sup>®</sup> researchers met with hundreds of back pain sufferers. Almost all of them wanted just 3 things:

- An end to their back pain
- A portable solution they can use anytime and any place
- An instant solution that didn’t take days for an appointment or hours for the drug to kick in

You’ll find all three in the **Nubax**<sup>®</sup> Trio. You’ll enjoy greater flexibility, pain relief and even gain strength — all without the use of drugs or the need to invert.

We know it works. Our customers know it works. Now it’s your turn to find out for yourself.

And we make it as simple as possible to find out.

First, **Nubax**<sup>®</sup> provides a full money back guarantee. If it doesn’t alleviate or reduce your back pain — no matter the cause and no matter how severe — we will gladly refund your purchase price.

Second, because our commitment to quality is unparalleled, we offer a full 5-year product warranty covering all structural and soft parts.

## Get your **WHOLE LIFE** back. For life.

The moment you are thrilled that you discovered the **Nubax**<sup>®</sup> Trio is the moment you lift your child or grandchild high in the air without even a hint of pain.

It's the moment when your friends ask you to play a round of golf, and for the first time in months, you say, "Yes."

It's the moment you stop living half a life and pursue all of your passions and dreams.

**You CAN re-gain your life back.**

And it's all made possible by the uniqueness, simplicity, portability and leveraging power of the **Nubax**<sup>®</sup> Trio.

P.S. Almost every day, we get new letters, emails and phone calls from people just like you. People who have suffered through back pain for years and even decades. Like you, they tried everything. Like you, they threw their arms up at one point and thought there was no hope. And like you, they read a letter like this and learned about the **Nubax**<sup>®</sup> Trio. That's the minute their life changed.

Do yourself and your loved ones a favor and order the **Nubax**<sup>®</sup> Trio today. You'll enjoy peace of mind knowing we offer a full 100% money back guarantee. Plus, you'll get your **WHOLE LIFE** back. **Don't delay, your health is too important.**
