# Breakthrough Software Replicates Your Experts' Thought Processes — To Duplicate Their Extraordinary Results

Think of that ONE standout team member. The one with the most efficient process. The lowest error rates. The one who constantly delivers the most impactful results that bring the highest profits.

With our Patent Pending IntelliMime® software, you can “clone” that expert’s thought process, actions and RESULTS! Suddenly, every member of your team delivers the SAME expert results.

## Here’s How It Works

Step 1 – Your experts are thoroughly interviewed.

Step 2 – We discover mental operations and actions for ideal results.

Step 3 – These expert results are organized coded into unique IntelliMime® software.

Step 4 – Now everyone on your team benefits by implementing these best practices!

**Production UP... Morale UP... Profits UP!**

## Slash Labor Costs and Eliminate Errors

Your entry level and junior associates cost your business more than you think. Expensive and time-consuming errors. Painfully slow production. Constantly asking questions. Inefficient workarounds. Training and re-training.

IntelliMime® software eliminates these business bottlenecks by discovering the absolute best and proven practices and sharing them throughout your team. Now even your most recently hired junior employee can be a top performer. **Learn More >>**

## **Any Business Can Benefit From IntelliMime®**

Our powerful, Patent Pending software has helped to maximize production and profits in multiple industries.

**Bank / Mortgage / Insurance Companies** — Improves processing and underwriting. Maximizes effectiveness of decision-making and actions.

**Fortune 500 Corporations / Small Businesses** — Enhances training throughout the organization. Everyone becomes a top producer.

**Universities and Government** — Everyone employs best practices for grant and application review and assessment.

# **IntelliMime Optimizes The 80/20 Rule — Everyone Becomes An Expert!**

Right now, about 80% of your office productivity is generated by about 20% of your employees. This 20% is your elite top-producing team. **The Gold Standard.**

This exclusive Gold Standard team maximizes efficiency. They make practically zero errors. They make the best decisions. And they always deliver the greatest results.

So, how do you get the 80% of lower producers to QUICKLY and CONSISTENTLY mimic the processes, decision-making abilities and results of the 20% top producers?

- **Training?** While training can help, most employees return to their old unproductive habits, old way of thinking, and old mistakes.
- **Hiring experienced employees?** This adds a ton of payroll expense and takes considerable time to train and manage.
- **More meetings, more rules, more paperwork?** Even more of your precious time and resources being wasted. And it rarely produces your desired results.

To truly bring that 80% of your team up to the 20% Gold Standard of efficiency, productivity and results...

## **You Need a First-of-its-kind Solution. You Need IntelliMime®.**

Over and over again, IntelliMime® has radically transformed many organizations. Before IntelliMime®, these banks, businesses and government agencies were the model of inefficiency:

- Wasting valuable hours
- Creating mountains of errors
- Making wrong decisions
- Putting their organizations at risk for lawsuits and fines
- Even costing them untold revenue and profits

Then, once the IntelliMime® software successfully mimicked the decision-making, actions and best practices of the top producing experts, it was like night and day:

- More efficient and productive processes
- Massive reduction of errors
- Solid decisions that benefitted organization
- Risk of lawsuits and fines were drastically reduced
- Revenue, profits and even company morale went up!

## **How Does IntelliMime® Transform Business Results? We Combine YOUR Best People With OUR Best Technology**

Let's start with some quick definitions.

### ***Miming [mīm-ing]:***

The process of **discovering and evaluating the best practices of top producing experts** within an organization. Then **documenting the step-by-step reasoning** they use to arrive at winning decisions and actions.

### ***Mime [mīm]:***

The unique software that **deploys the inductive and deducting reasoning of top producing experts** to improve the entire organization.

That's the power of our software. We combine your best assets — your top producing experts... with our best assets — our one-of-a-kind, Patent Pending software!

Together, we ensure that every member of your team has all the right steps, the right decisions and the right actions to deliver an “expert” result every time! Because the minute you exponentially **MULTIPLY** the number of experts within your organization, you immediately transition to a whole new level of efficiency, production, client satisfaction and profitable results.

## **Breaking Down the IntelliMime® Process**

- 1) First, we work with you to identify problems and inefficiencies within your organization. Bottlenecks, errors, breakdowns in decision making.
- 2) Next we review your process on a holistic level to determine the best course of action for maximum results.
- 3) Then we help you to identify your top-producing experts — Your models of efficiency, productivity and error-free results. We conduct thorough miming sessions with these experts where we discover every last detail about their winning process.
- 4) We extract all of the data and results and code it into our sophisticated IntelliMime® software. We test it multiple times to make sure it works flawlessly.
- 5) Together, we develop a comprehensive change management plan.
- 6) Deploy Mime, including user set-up, training and server migration. Your management team and your employees champion this positive change to your organization.

Once your organization becomes an “IntelliMime® Business”, you’ll gain unsurpassed efficiencies and productivity like never before. Here are just a few more benefits you can expect:

- IntelliMime® provides just-in-time data, documentation and instructions.
- It reduces the need for employees to ask questions, consult a manual, or waste valuable time in searching for the correct procedure.
- It automatically directs or “escalates” extraordinary situations to the appropriate decision makers.
- Problems are identified faster and resolved much quicker
- Provides dynamic, real-time, at-a-glance and detailed management reporting
